

UNIVERSITY HEALTH SERVICES

Dear Doctor:

Your patient has been accepted to Salve Regina University. In order for our Health Services Staff to better serve him/her, the student has been asked to submit a fully completed Health Examination Report Form prior to orientation.

Pages 1, 2, and 3 of the report should have been completed and signed by your patient prior to your assessment. There are several requirements to the Physical Exam which need to be performed and dated within the eight months prior to registration. We ask that you consider this with your patient.

1. **A complete medical examination.**
2. **Hemoglobin and or hematocrit and urinalysis. (Note results.)**
3. **Cholesterol although not required is strongly recommended.**
4. **Hepatitis B vaccine series, varicella series, 2 MMR's, and Td are required by state law.**
5. **Meningococcal and HPV (Gardasil) vaccine are strongly recommended.**

Registration at Salve Regina University cannot be confirmed until a completed Health Examination Report Form has been submitted.

If your patient is being followed for a medical problem, we will be happy to cooperate with you and continue in his/her management. We will appreciate receiving a summary of his/her record including the diagnosis, recommendations for further evaluation, if any, and treatment. If you feel that there are any areas of special consideration, please notify us with full particulars

Sincerely,

Mary Kay Connell, RNP
Director of Health Services
Salve Regina University
