

Salve Regina University Final Week Schedule Spring 2015

Undergraduate final exams take place during the Final Week as scheduled in the table below. University policy requires all classes to meet with their instructors during the final exam period whether for an examination or for further instruction. Faculty may penalize students for failure to attend the final exam period.

The Exam Matrix below is designed to help spread final exams across several days and minimize the number of cases in which a student takes more than three exams on any day. If a student is scheduled for more than three exams in a single day, they should notify their course instructors about arrangements for an alternate day/time for one of the exams.

An exam schedule may differ from the protocol on which the matrix is built. For questions, consult the instructor or the Registrar's Office.

How to interpret the matrix: Normal class meeting day and start time determines when the final exam will be held. Locate your class day and start time in the matrix and the table will indicate the corresponding exam day and time.

Example:

Class Meets: Monday, Wednesday, Friday at 10:00 a.m.
Exam Day/Time: Tuesday, May 5th 11:30 a.m.-2:30 p.m.

Evening Classes: Undergraduate final exams are scheduled in the matrix below. Graduate final exams for evening courses are held on the normal day & hour of class meeting.
