

FIRST DESTINATION SURVEY CLASS OF 2022

Prepared by the Office of Career Development
Salve Regina University

The Office of Career Development compiled and prepared this First Destination outcomes report for the Class of 2022. Data were gathered in three phases between April 2022 and February 2023, and includes outcomes reported through survey responses, faculty knowledge, social media postings, and information from the National Student Clearinghouse, resulting in first destination data for 76.4% of the class, or 327 graduates out of 428.

WHERE IS THE CLASS OF 2022 NOW?

Outcome data was gathered for 327 (or 76.4%) of the 428 graduates from the Class of 2022. Of these individuals, **93.6%** were engaged in full/part time employment positions or graduate study.

Of the 21 respondents who reported they were **still seeking**

- 19 were seeking employment
- 2 were seeking continued education.

EMPLOYMENT

187 graduates out of the 327 respondents indicated that they were working post-graduation.

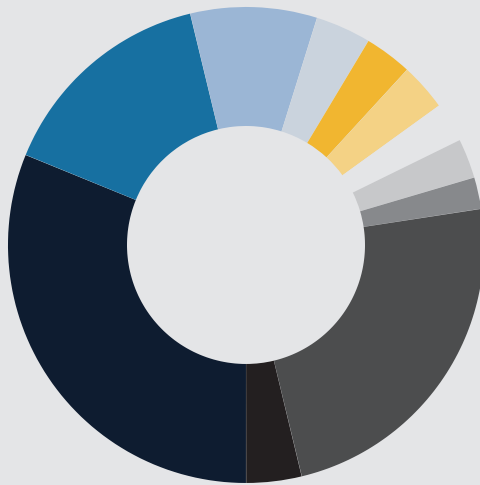

FULL-TIME VS PART-TIME EMPLOYMENT

179 of the 187 respondents who indicated they were working (95.7%) reported that they were working full-time. 8 were working part-time.

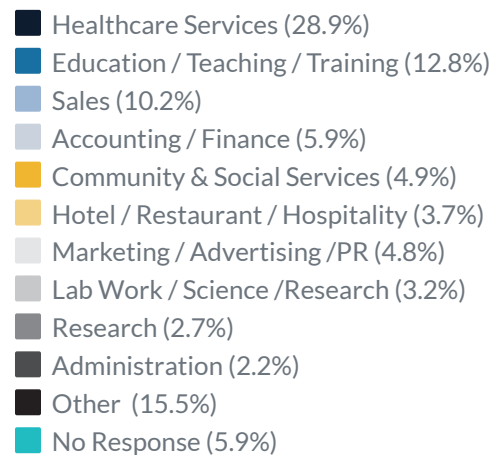

Additionally, of the 187 respondents who reported they were working

- 21 reported that they were actively searching/applying to continuing education programs
- 62 reported that their current position was in the field/industry they wish to work in, while 12 reported that it was not
- 8 reported that they were actively searching for alternative employment

TOP EMPLOYER INDUSTRIES FOR 2021 GRADUATES

JOB FUNCTIONS FOR 2021 GRADUATES

Top industries for 2022 graduates include Healthcare Services, Education, and Accounting and Financial Services.

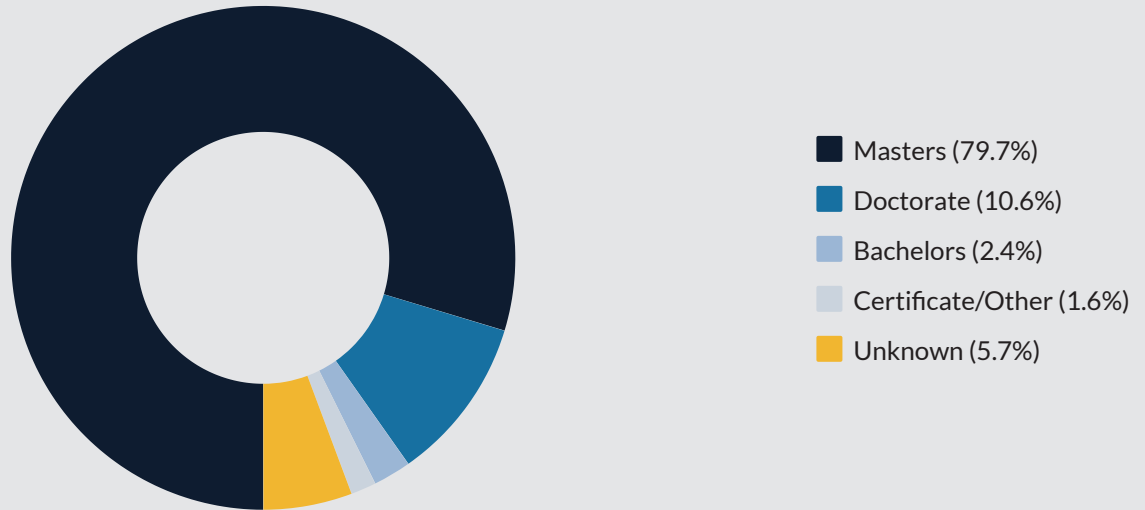

Additionally, for these graduates, first destination locations were cited across the United States, and globally. The four most common states for work were Massachusetts (47), Rhode Island (45), Connecticut (31) and New York (12) and comprised 8.13% of the 166 respondents who provided location data. Two respondents are working internationally in Rwanda and Sweden. 21 respondents did not provide their employment location.

CONTINUED EDUCATION

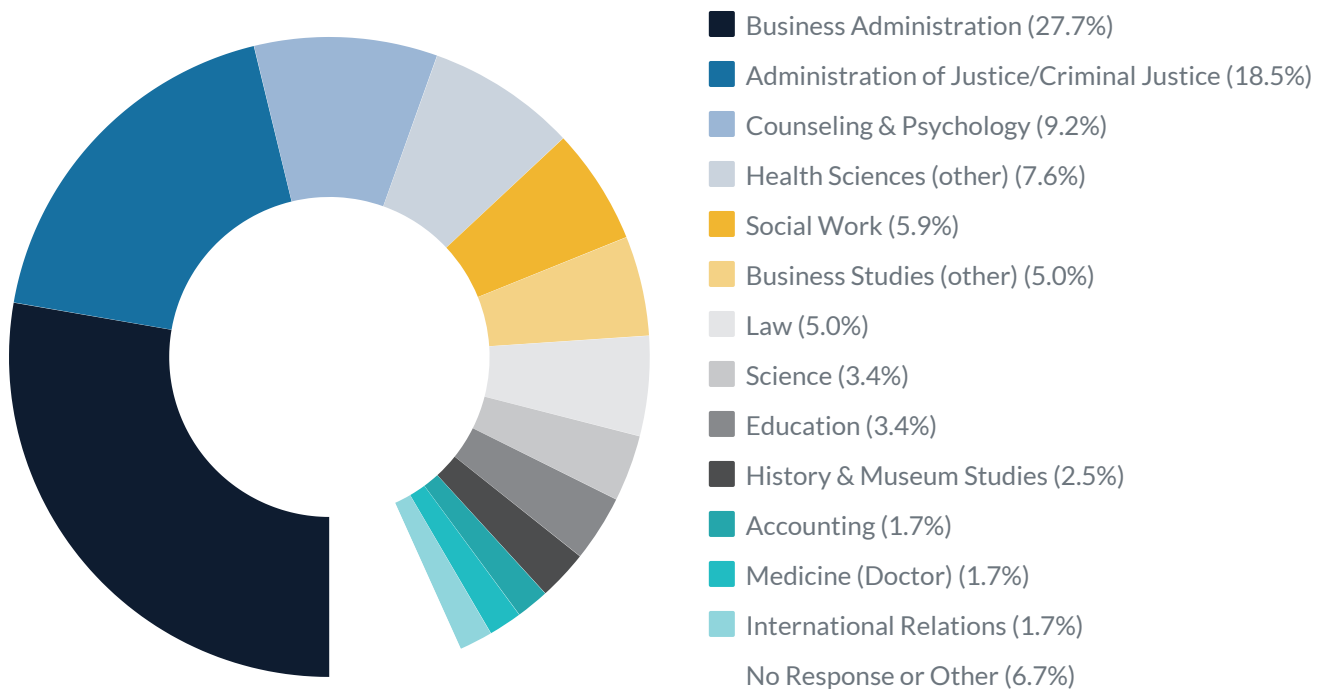

119 graduates out of the 327 respondents indicated that they were pursuing continued education.

Of those 150 respondents, 18 reported that they were also actively searching for employment.

TYPE OF DEGREE PURSUED

TOP FIELDS OF GRADUATE STUDY

Of the graduates who reported continuing their education, multiple locations were cited across the United States. The most common state reported was Rhode Island, followed by Massachusetts, New York, and Connecticut. One important item to note is that **57.1% (68 of 119) of these individuals reported pursuing continued education at Salve Regina University.**
